CPU09M

Article-Number: 501382

Short description:

- Mobile control unit
- 19" rack
- Input 24V DC
- Digital I/O-Interface

Specifications

Power supply	24 V DC
Input power	10 Watt
Inputs	16 isolated (by optocoupler)
Outputs	4 isolated (by relay)
Interfaces:	
X1	Power
X2	Input/output vehicle criteria
X3	RS232
X4	RS485/422
X5	VDV-IBIS-Interface
X6	USB (service interface)
Status signals	18 LED
Operating temperature range	-25° bis + 75 °C
Storage temperature range	-40° bis + 85 °C
Humidity	max. 90% non-condensing
Case material	Aluminium
Case protection class	IP20
Dimensions W x H x D	71 x 130 x 233 mm (14HP/3RU)
Weight	900 g

Meets the following standards:

Climate- and shake- resistance	EN 50155
Electromagnetical compatibility (EMC)	EN 50121-3-2
Fire prevention	DIN 5510 part 1 of fire prevention level 2
